

OUTSTANDING FEATURES OF THE *Sun-Kraft* QUARTZ ULTRAVIOLET RAY THERAPY LAMP

Beautiful in design, finished in tarnish-proof, surgical brushed chrome. Portable; easily, readily adjustable to any position.

Several patents and patents pending protect the remarkable *new* SUN-KRAFT application of radio frequency which energizes the *burn-out-proof* SUN-KRAFT Quartz Tube without internal wires, filament or electrodes, thereby inducing an output of 95% ultraviolet rays that will not vary in constancy no matter how long or how often SUN-KRAFT is used.

The SUN-KRAFT Quartz Tube will not fog, develop black spots or weaken in ultraviolet ray intensity.

SUN-KRAFT ultraviolet rays are cold—*purposely* so—because heat dissipates ultraviolet rays! Peak intensity of SUN-KRAFT ultraviolet rays is in the 2537 Angstrom unit line, which is important as an inducer of Vitamin D and also as a powerful germicidal agent.

SUN-KRAFT'S ultraviolet rays are scientifically gauged to cope with the resistance of the human skin, and even though the ultraviolet ray emission is 95%, the intensity of the rays is kept low to minimize any danger of over-exposure.

Each SUN-KRAFT is equipped with a pair of protective goggles and a beautiful, durable leatherette carrying case without extra charge.

The SUN-KRAFT Quartz Tube is guaranteed for 5 years except against breakage; rest of the SUN-KRAFT lamp is guaranteed for one year.

Sun-Kraft

COLD QUARTZ ULTRAVIOLET RAY THERAPY LAMP

MODEL A-1

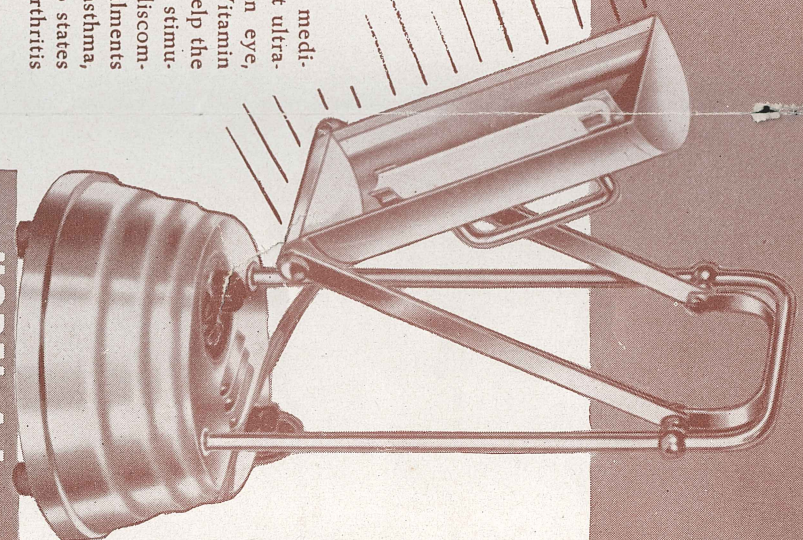

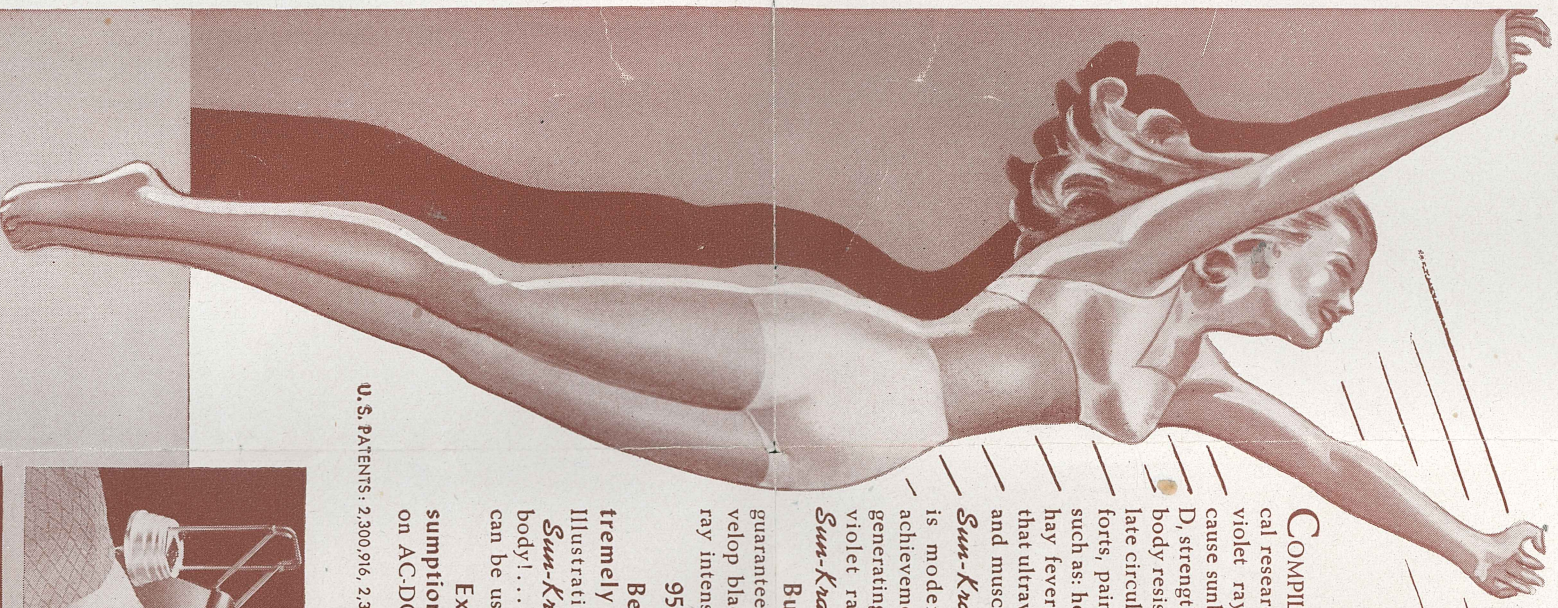

PRICE \$64.50

THE beautifully designed *Sun-Kraft* Lamp is a radical departure from conventional type ultraviolet ray lamps that are on the market today. It is not a Sun-Lamp, because its radiation of 95% ultraviolet rays are always cold and always constant in intensity no matter how long or how often it is used. *Sun-Kraft* will not only create "erythema" (skin tan) but because its rays' peak intensity is in the 2537 Angstrom waveband, it induces Vitamin D production and acts as a powerful germicidal agent as well. The *Sun-Kraft* Quartz Tube (6" x 5/8") will always retain its pure transparency, and will not burn out!

Complete with Telescopic
Floor Stand \$89.00.
The SUN-KRAFT Lamp can
be easily mounted on mo-
bile, telescopic floor stand
in a few seconds as illus-
trated.

Handsome durable
carrying case is
standard equipment
of Model A-1
SUN-KRAFT.

COMPLATION of many years of medi-
cal research proves conclusively that ultra-
violet rays, invisible to the human eye,
cause sunburn, kill bacteria, induce Vitamin
D, strengthen bones and teeth, and help the
body resist ailments. Ultraviolet rays stimu-
late circulation, and aid in relieving discom-
forts, pains caused by respiratory ailments
such as: head colds, sinus, bronchitis, asthma,
hay fever, etc. Medical science also states
that ultraviolet rays aid in relieving arthritis
and muscular pains.

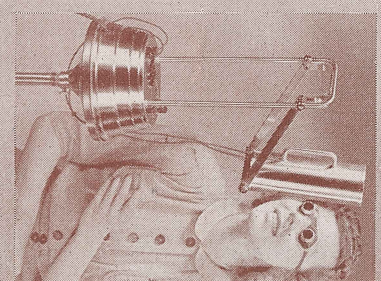

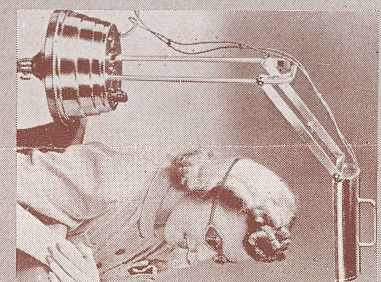

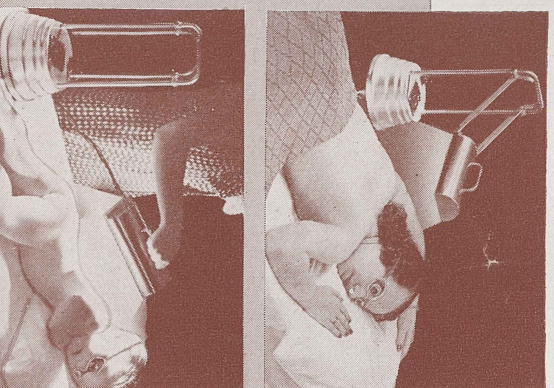

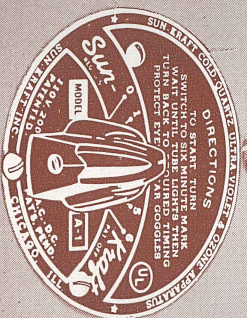

Sun-Kraft Cold Quartz Therapy Lamp
is modern science's latest important
achievement in the field of ultraviolet ray
generating devices. Unlike any other ultra-
violet ray lamp on the market today,
Sun-Kraft has these outstanding features.

Burn-out-proof Quartz Tube,
guaranteed for five years not to fog, de-
velop black spots or weaken in ultraviolet
ray intensity.

95% Pure Ultraviolet Radiation.
Beautifully Designed . . . Ex-
tremely Compact And Flexible . . .
Illustrations below show how easily
Sun-Kraft can treat any part of the
body! . . . Its reflector is easily removable—
can be used as a hand applicator.

Extremely Low Current Con-
sumption—less than 50 Wátts. Operates
on AC-DC, 110 Volts.
